2. Where a clause is stated to be "complied" the bidder may provide further reference details, but in event of any discrepancy between these details and the statement of compliance, then the compliance statement will be taken by the PTCL as correct and binding upon the bidder and the details (including footnotes or specified in any other form or place) given by the bidder will be ignored
3. Where the clause is stated to be "not complied" or "partially complied" then the bidder will provide full details of the deviation from the specified requirements together with full details of any alternative arrangement offered.
4. Simply signing of every page of bid documents will not serve the purpose of the compliance statement and will be treated as not complied. Therefore, proper compliance sheet should be attached with the bid.
5. If a certain clause(s)/sub-clause(s) are missed or left unattended in commercial compliance sheet such clause(s) or sub-clauses would be considered as not complied.
6. Failure to provide commercial compliance will be deemed sufficient cause of rejection of the bid and will be major deviation.
